

PRESSURE TEST PUMP / TESTER (CT1)

- Application** : For Calibration of Pressure Instruments Like.. Pressure Gauge, Pressure Transmitter etc...
- Type** : Hydraulic Pressure Tester
- Instruments Connection** : 1/8" / 1/4" / 3/8" / 1/2" BSP or NPT
- Pressure Range** : 100 bar / 400 bar / 700 bar / 1000 bar / 1500 bar / 2000 bar
- MOC** : SS 304
- Media** : Water and Oil Any Can Used.

Master Gauge Is Not Standard Accessories of Pressure Pump. Available With Extra Cost.

PRESSURE TEST PUMP / TESTER (CT2)

- Application** : For Calibration of Pressure Instruments Like.. Pressure Gauge, Pressure Transmitter etc...
- Type** : Pneumatic Pressure Tester
- Instruments Connection** : 1/8" / 1/4" / 3/8" / 1/2" BSP or NPT
- Pressure Range** : -1 to 30 bar
- MOC** : SS 304
- Media** : Compressed Air

For Vacuum and Pressure Generation External Source Required Ex. Vacuum Pump & Air Compressor

PRESSURE TEST PUMP / TESTER (CT3)

- Application** : For Calibration of Pressure Instruments Like.. Pressure Gauge, Pressure Transmitter etc...
- Type** : Portable Hydraulic Pressure Tester
- Instruments Connection** : 1/8" / 1/4" / 3/8" / 1/2" BSP or NPT
- Pressure Range** : 400 bar / 700 bar
- MOC** : SS 304
- Media** : Water and Oil Any Can Used.

Master Gauge Is Not Standard Accessories of Pressure Pump. Available With Extra Cost.

POINTER POOLER (PP)

- Application** : For Re-Calibration of Pressure Gauge Removing Pointer form Gauge
- MOC** : Brass With Nickel Plated

Master Gauge Is Not Standard Accessories of Pressure Pump. Available With Extra Cost.

JOB WORK

- Welding** : Laser Welding For Diaphragm Seal / Argon Arc Welding
- Drilling** : Upto 1 Meter Drilling Facility for Thermowell
